EnviroWirxTM
7 Yard

Ready to tackle
**YOUR WASTE MANAGEMENT
CHALLENGES**

It's clean, it's innovative, and it works!

EnviroWirx is a 7yd., semi-underground waste container manufactured and distributed in North America.

EnviroWirx was designed to solve the common problems associated with traditional waste containment, removal, and management.

EnviroWirx has proven successful in property management, fast food, strip mall and parks and recreation applications.

EnviroWirx is a perfect fit for existing real-estate as well as new construction.

Empty in 2 min. **COLLECTION SIMPLIFIED**

Watch EnviroWirx in action at [YouTube/EnviroWirx](https://www.youtube.com/EnviroWirx)

- 1 Driver approaches the EnviroWirx and inserts front forks through the steel handles.
- 2 Driver lifts straight up until bottom of EnviroWirx is clear from the liner.
- 3 Driver continues to lift while tilting the forks in the normal lifting procedure.
- 4 Driver tips and dumps the EnviroWirx bin slowly, allowing gravity to empty the waste.
- 5 Driver returns EnviroWirx to the upright position and places it back into the inground liner.

*With EnviroWirx,
the driver never leaves the truck.*

EnviroWirx™

Brand New!

4.5 Yard Version

All of the advantages of the 7 yard bin:

SAVE SPACE

SAVE MONEY

IMPROVE APPEARANCE

4.5YD SURFACE MOUNTED SHOWN
WITHOUT CONCRETE RING

NO EXCAVATION REQUIRED

The 4.5 yard EnviroWix waste container rests on a concrete ring (included), meaning you don't have to worry about digging down like with deep waste bins.

Not only does this convenience provide you the savings of excavation and installing barriers, it also allows you the option of placing your container wherever you please!

Save Space

42% of EnviroWirx is *underground* and **out of sight**

EnviroWirx **does not require** a fenced enclosure or roof

EnviroWirx **can be installed** in visible areas designated as undesirable for steel bins

EnviroWirx **holds more waste** in a *smaller footprint* than a standard steel dumpster

Save Money

EnviroWirx can be **picked up by any hauler** with front forks, giving *you* the competitive advantage to **shop for a waste hauler that meets your needs**

EnviroWirx has a pay load of 3,300lbs; **holding more** means *fewer* bins and **less frequent pick ups**

Envirowirx **does not require** replacement bags, liners, or parts, meaning *no future expenses* or unexpected costs

Improve Appearance

EnviroWirx *holds waste underground* where **temperatures are cooler** in the summer and warmer in the winter

Cooler sub-surface temperatures **reduce odour emission**

Warmer sub-surface temps *mitigate freezing*

Aesthetically pleasing, EnviroWirx can be located in **high visibility** areas **minimizing dumping** of *unwanted items*

EnviroWirx unique *concave ridge surface* container is a **deterant for grafitti** and spray paint vandalism

EnviroWirx has a *secure lid* designed to **keep wildlife**, *from raccoons to wasps*, **out of the unit**

Simplify the Process

EnviroWirx can be **picked up by any Hauler**, meaning *you can continue uninterrupted service* with your existing carrier

EnviroWirx can be **installed in a few hours** and *used immediately*

Install yourself or use our installation service

Drivers love EnviroWirx because they **do not** have to **leave the truck** or handle the container

EnviroWirx Bins are **emptied in under 2 minutes**

Weight Estimates

Reference Only - 7yd³ of same material

Aluminium Cans - uncompacted

50lbs / 23kg

Aluminium Cans - compacted

1,400 lbs / 520 kgs

Broken Down Boxes

1,050 lbs / 475 kgs

Commercial / Industrial Waste - uncompacted

3,150 lbs / 1,430 kgs
